

**2017 3<sup>rd</sup> IEF Forum**  
**Shaping the Future of Metabolic Surgery**  
**Windsor Hotel | Taichung, Taiwan**  
**Friday – Saturday | July 28<sup>th</sup> – 29<sup>th</sup>, 2017**

# Chairman's Message

1

**Dear IEF members and Friends,**

It is my greatest pleasure to extend hearty greetings to all of you, who will attend 3rd IEF Forum.

IEF was established since 7 years ago, and IEF centers have increased to more than 60 centers in these years all over the world. I feel extremely pleased and honored to see many surgeons work together and enthusiastically in the field of Bariatric and Metabolic Surgery. IEF centers have held training workshops and adopted fellowship programs during this period, and through these educational activities, not only surgeons, but other medical staffs including nutritionists, case managers, nurses, dietitians, fitness trainers, and other experts can broaden their horizon by exchanging opinions, technical knowledge and professional skills with each another.

“Shaping of the Future” of 3rd IEF forum would focus almost on the ongoing research results and the future development and innovation in bariatric and metabolic surgery . This time we also conjoin body contouring section and live surgery to open all delegate's eye vision on the new demand of our patients. In addition, post-surgical weight gain management by physician would be another issue we need to go deep for care. Taichung is the 2nd city of Taiwan, and just locates in the center of our island. It owns great climate, city view and scenery beauty. I look forward to welcoming you and I definitely strongly believe you will benefit and enjoy from this unforgettable experience in Taichung city.

Co- Chairman  
Dr. Hui Liang  
China

Co- Chairman
